

## Reception Forest School Session 1 Summer Term 1.5.19

Today we have been looking for bugs. We used the bug catchers to look closer at the bugs that we found. We enjoyed painting tree cookies to look like some of the bugs we found. We painted ladybirds, spiders, worms and bees. Some children also had a go at making some dens with the help of some of the adults. We also introduced some tree cookie coins into the mud kitchen.
