

## Year 3 Forest School Session 1 Summer Term 2.5.19

Today we thought about our new topic and discussed the different types of dragons that are in Chinese beliefs. It was interesting to find out how many different types of dragons there are. Some children created a restaurant in the mud kitchen. Others saw a dragon in the clouds. Some children found bits of bark and created dragon scales with them. We also had some visitors at Forest School, Mr and Mrs Duck came to see us and were very happy for the children to get close to them and give them a bit of bird seed.
