

## Reception Forest School Session 2 Summer Term 8.5.19

Today we have been enjoying the rain. We used tissue paper and the rain to make butterfly feeders. After making the butterfly feeders some children were inspired to make their own muddy handprint butterfly pictures. Some children also found natural objects to match the foam mats. We also tried to look for bugs in the rain. We had new car and trucks to play with in Forest School which have been great fun.
