

Reception Forest School Session 1 18.9.19

Today was our first session of Forest School. We played some games to get used to the Base Camp rules. We had fun exploring the site and those that know the site already had great fun pulling logs using a timber hitch. The children worked together to pull the larger logs. Some children helped fill up the water using the hose pipe. They worked together as a team and when the water began to run out children helped each other to get out the last drop.
