

Reception Forest School Session 2 25.9.19

Today we thought about the story of the Three Billy Goats Gruff. Some children thought about ways in which the goats could escape the troll. Some children made boats, some children tried to make a tin foil river, while others made bridges for the goats and children to cross. Some children got creative and made their own troll. We even explored making our own trip trap noises to cross the bridges. We also thought about big, small and medium sized objects in Forest School.
