

Reception Forest School Session 3 2.10.19

Today we thought about the story of The Gingerbread Man. We all orally told the story at base camp. Some children made alternative ways for the Gingerbread Man to cross the river such as boats or bridges. Some children made their own gingerbread men from natural resources. We also played hide and seek with some Gingerbread men hidden in Forest School. Some children also thought about where water comes from and ways in which we can collect water.
