

Year 3 Forest School Session 5 17.10.19

Today we continued to think about the Romans. We followed the children's interests of swords and thought about aspects of the Roman Army. We shared facts about the Roman army at base camp. Children had opportunities to whittle and make swords and javelins. The children thought very carefully about how they were going to keep themselves and their friends safe while using them. The children made camps like Roman soldiers would have done as well as making and extending an aqueduct.
