

## Nursery Forest School Session 10 Week beginning 5<sup>th</sup> October

Today we read Supertato - Carnival Catastro-pea. The children continued to enjoy playing hide and seek with the vegetables! Some children had a go at bashing the ice, luckily all the vegetables were free. In the story the evil pea sucked away all the colour with his invention. We tried to get some of the colour back and mixed our own mud paints using mud, powder paints and water. We tried to recreate the picture in the story when all the colour is blasted back. We also had great fun creating a carnival party play area for the vegetables that included a zip line, see-saw, swing and slide. There was lots of investigating and problem solving going on.
