

## Nursery Forest School

### Session 2 - Week beginning 7<sup>th</sup> September

Today we continued thinking about maps and followed the interests of the children by sharing the story of 'What the ladybird Heard'. The children had a go at making their own maps of the farm, made food for the animals in the mud kitchen and looked for ladybirds and thought about ways to scare off the robbers and wake the farmer. The children also enjoyed moving large sticks safely and making their own see-saws. There was lots of lovely language about what size would be best.
