

Reception Forest School

Session 2 - Week beginning 14th September

Today we continued learning about our local environment. We looked at the book 'Here we are' and thought about all the different animals and homes they have. Some of the children enjoyed making homes for different animals using the materials we have in Forest School. Some children made food for the animals in the mud kitchen. Other children enjoyed using their muscles to pull large logs around the site. Some children had to work together to pull the log as it was too heavy for just one person. Other children enjoyed making the tyres into small towers and sitting in them and relaxing in the sunshine.
