

## Reception Forest School

### Session 1 Autumn 2 Week beginning 2<sup>nd</sup> November

Today we thought about Bonfire Night. In PSHE we have discussed firework safety so we continued our theme. Some children explored flour in the tuff tray and made firework patterns using their fingers or sticks. Some children created their own leaf sparklers while others worked together to create a large bonfire with sticks and logs. They added the leaves to look like flames. Some children explored making firework pops and bangs by hitting sticks on different surfaces. Others simply had fun making leaf showers.
