

## Reception Forest School

### Session 4 Autumn 2 Week beginning 23rd November

Today we thought about celebrating birthdays in Forest School today. Some children were particularly interested in finding patches of frost and frozen spiders' webs as it was quite frosty when we first went out. Some children created birthday cakes in the mud kitchen, others threaded leaves onto wool to create some birthday bunting. Some children created birthday hats and birthday games. Some children tried to pull each other sat in the tyres. It was a great way to get moving and warm up. A couple of children were very interested to find some worms and began creating warm and cosy homes for them.
