

Year 1 Knowledge Organiser

History

Transport through Time

Project Question:

How has the way we travel changed through time?

Exciting Books and Useful Links:

Books:

Rosie Revere: Engineer

How Ships Work

How Spaceships Work

DK Find out: Space Travel

These are books we'll be using in school, but feel free to either take them out the library or explore other books on transport!

[Transport Songs](#)

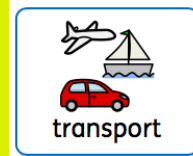

What I should already know:

- What transport is
- Some different types of transport that we use today

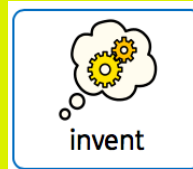

What I need to know:

- That new inventions have led to changes in the way we travel and different types of transport
- A simple chronology of transport from the invention of the wheel to the present day; identifying which came first.
- Some significant events in the history of travel e.g. Man landing on the Moon.
- What transport might look like in the future.

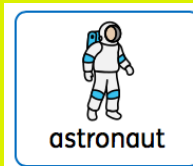

Key Vocabulary:

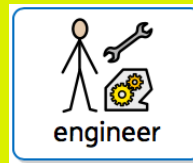

transport

invent

astronaut

engineer

pilot

Something we use to travel around e.g. car, boat.

To design and create something new.

A person whose job is to travel in a spacecraft.

A person whose job is to design and build technical equipment.

A person whose job is to fly an aeroplane.
